

## **Laura Kann, PhD**

Chief, School-Based Surveillance Branch  
Division of Adolescent and School Health

National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention (NCHHSTP)  
Centers for Disease Control and Prevention (CDC)

Laura Kann, PhD, is a senior scientist and distinguished fellow. She serves as the chief of the School-Based Surveillance Branch in the Division of Adolescent and School Health and manages the Division's scientific portfolio of four large surveillance systems (the Youth Risk Behavior Surveillance System, the School Health Policies and Practices Study, School Health Profiles, and the Global School-Based Student Health Survey). Dr. Kann's primary area of interest is domestic and international school-based survey research. She has authored more than 200 peer-reviewed scientific publications as well as numerous peer-reviewed national and international conference presentations and posters. Dr. Kann has also received many academic and professional awards, including the Department of Health and Human Services Secretary's Award for Distinguished Service. She is a past president of the American School Health Association and has worked in the Division of Adolescent and School Health since 1987.

Dr. Kann received a Bachelor of Science degree in school health education from the University of Illinois in 1982, a Master of Science degree in health education from the University of Illinois in 1983, and a PhD in health behavior with a minor in measurement and evaluation from Indiana University in 1987.
